

Summary Billing for MGE Business Customers

MGE Summary Bill

Multiple accounts in:

- ONE bill
- ONE amount due
- ONE due date

Are you tired of receiving multiple MGE bills? Would you like to view your bills online and reduce the amount of paper in your office? If your answers to these questions are “yes,” then MGE’s Summary Billing may be right for you!

MGE’s Summary Bill was designed with MGE customer input. Customers told us what they wanted and we delivered a summary bill that provides:

- **Convenient access to billing information**
When your summary and supporting detail bills are ready to view and pay, you will receive an e-mail. Access your summary bill online 24/7, when it fits your schedule. [See sample bill at mge.com/samplesummarybill.](http://mge.com/samplesummarybill)
- **Easier check-writing**
You will receive one summary bill with a total amount due, rather than a bill for each account.
- **Flexibility in managing bills**
Group your MGE accounts in ways that makes sense to you and your business! For example, by departments or cost centers to make it easier to manage, approve and pay bills.
- **Online bill history**
12 months of summary and detail bill history will be available for you to view and track online.
- **Paper savings**
You will no longer receive paper bills. And you can stop making photocopies. Just send billing information to others in your organization electronically.

To see if your business qualifies for Summary Billing, contact your MGE Account Representative or call 608-252-7007.
