

Residential Time-of-Use Rate

AVAILABILITY

This rate schedule is for residential customers, subject to conditions of availability as specified in Rate Schedule Rg-1, as follows:

Mandatory: This rate schedule is mandatory for nonfarm, single-family, residential units with average daily usage of 130 kWh per day or more during the summer billing season.

Optional: This rate schedule is optional for all other residential customers. Those customers who wish to be served on this rate schedule on an optional basis must apply to the Company for service. Customers will be placed on this rate on a first-come first-served basis as the appropriate meters become available. Once an optional customer begins service on this rate schedule, that customer will remain on the rate for a minimum of one year.

RATE

		<u>Summer</u>	<u>Winter</u>
Customer charge per day		\$0.28590	\$0.28590
Distribution service: All kWh, per kWh.....		3.000¢	3.000¢
Electricity service:			
R	All on-peak kWh, per kWh.....	23.274¢	20.452¢
R	All off-peak kWh, per kWh.....	3.971¢	3.971¢

Summer rates are effective from June 1 through September 30. All other times of the year winter rates are effective.

MINIMUM MONTHLY CHARGE

The minimum monthly charge will be the customer charge.

PAYMENT

Payment is due not later than the due date shown on the bill. Any Company billing charges unpaid after the due date will be subject to a late payment charge as described in the Company's electric service rules under Late Payment Charge.

PRICING PERIOD DEFINITIONS

On-Peak Periods: 10 a.m. through 9 p.m.: Monday, Tuesday, Wednesday, Thursday, and Friday, excluding holidays.

Off-Peak Periods: 12 midnight through 10 a.m. and 9 p.m. through 12 midnight: Monday, Tuesday, Wednesday, Thursday, Friday, plus all day Saturday, Sunday, and holidays.

Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

CHARACTER OF SERVICE

A customer will be classified as residential in accordance with the Company's standard classifications set forth in its rates and rules and will receive service in conformance with all rules and regulations pertaining to that classification.

SPECIAL TERMS AND PROVISIONS

1. This rate schedule will apply for a minimum of one year from the date consumption under this tariff is initiated.

Residential Time-of-Use Rate

2. Any customer choosing to be served on this rate schedule thereby waives all rights to any billing adjustments arising from a claim that the bill for the customer's service would be cheaper on any alternative rate schedule for any period of time, including any rights under Wis. Admin. Code § PSC 113.0406(4), Reg. January 2004, No. 577.
3. If the time-of-use customer does not have an outside meter, a key must be provided to the Company or other provisions must be made to ensure access to the meter by Company personnel during normal working hours.
4. If an optional customer moves or is forced to move, the customer has the option to retain time-of-use billing at the new premises. If the customer decides to discontinue time-of-use billing, the Company will offer time-of-use billing to the next customer on the waiting list.
5. If an optional customer, upon expiration of a full year on this rate schedule, decides to discontinue time-of-use billing, the Company will offer time-of-use billing to the next customer on the waiting list.
6. Where two or more residential units are on a single meter, one customer charge will be applied for each four residential units or fraction thereof in the premises.
7. The mandatory time-of-use rate will no longer apply to a residential unit served under this rate in the following cases:
 - a. Customers on the mandatory time-of-use rate who maintain an average daily usage below 100 kWh over four consecutive billing months in one summer may, at their option, be transferred to the residential service Rate Schedule Rg-1.
 - b. Customers moving into a residence that has been served on the mandatory time-of-use rate may, at their option, be transferred to the residential service Rg-1 rate schedule if their average usage is below 130 kWh per day after a minimum of four consecutive summer billing months of consumption under the time-of-use rate.
8. Customers required to be served under this rate schedule after June 8, 1981, will be billed immediately under this rate schedule. After six- and 12-month intervals, the Company will provide a billing comparison between the time-of-use rate and the residential service rate based on the customer's actual usage. The Company will also provide the customer with information on how usage patterns could be changed to benefit the customer under the time-of-use rate. This information will show the amount of usage shift required to provide a benefit to the customer.
9. Customers who have their meters turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
10. Other special terms and provisions are as specified in Rate Schedule Rg-1.
