

Small Commercial and Industrial Lighting and Power Service

AVAILABILITY

To any commercial customer using single-phase, 60-cycle alternating current for lighting, heating, and small motors (individual motors 7.5 horsepower or less) and all other appliances (including ranges) which do not interfere with lighting service; and for combined lighting and three-phase, 60-cycle, alternating current power service provided the single-phase load is distributed between the phases so that it will not unbalance the current per phase more than 10 percent.

This rate schedule applies to customers whose demand is 20 kW or less. A new customer initiating service with less than an estimated or actual demand of 50 kW will initially be placed on Cg-5 until the customer's demand exceeds the required demand for Cg-4 Level A or Level B in at least four out of 12 months.

The order in Docket 3270-UR-11 gave customers served on the Cg-1 Level B rate the option of being served on the Cg-1 Level 2 rate. This option ran out on March 2, 1984. Customers who chose to be served on Level 2 have the option of remaining on the Cg-1 rate or transferring to the Cg-5 rate at any time unless the customer's demand exceeds 20 kW. Once the customer transfers from Cg-1 to Cg-5, the Cg-1 rate is closed to this customer. Any former Level B customer choosing to be served on the current Cg-1 rate thereby waives all rights to any billing adjustments arising from a claim that the bill for the customer's service would be cheaper on the Cg-5 rate schedule for any period of time, including any rights under Wis. Admin. § PSC 113.0406(4), Reg. January 2004, No. 577.

RATE

	<u>Summer</u>	<u>Winter</u>
Customer charge per day	\$0.28590	\$0.28590
Distribution service: All kWh, per kWh	3.000¢	3.000¢
Electricity service: All kWh, per kWh	10.873¢	9.779¢

Summer rates are effective from June 1 through September 30. All other times of the year winter rates are effective.

PAYMENT

Payment is due not later than the due date shown on the bill. Any Company billing charges unpaid after the due date will be subject to a late payment charge as described in the Company's electric service rules under Late Payment Charge.

MINIMUM MONTHLY CHARGE

The minimum monthly charge will be the customer charge.

COMMERCIAL TEMPORARY SERVICE

When supplying service for a short period of time to commercial customers, such as carnivals, fairs, and festivals, the following terms and provisions apply:

1. Customer will deposit in advance of starting installation or construction work the estimated cost thereof plus the estimated cost of electrical energy to be consumed.
2. Customer will be charged for cost, including labor and materials used, plus usual charge for overhead, of making and removing the temporary connections.
3. Energy used may be measured or estimated at the option of the Company. If energy used is estimated, the estimate will be determined by multiplying the connected load by the probable number of hours' use.
4. Final adjustment of charge to customer will be made after removal of temporary construction.

Small Commercial and Industrial Lighting and Power Service

SPECIAL TERMS AND PROVISIONS

Customers who have their meters turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
