

Short-Term Interruptible Replacement Service

AVAILABILITY

Available to any customer taking service under the Is-1 or Is-2 Interruptible Service Riders.

RATE

The Short-Term Interruptible Replacement (STIR) service charge will be the greater of (1) the contracted cost of short-term replacement capacity plus 10 percent for administrative costs or (2) \$1.20 per kW week. All energy associated with STIR service will be billed under the rate schedule applicable to the firm portion of the customer's load.

The customer may negotiate with the Company the maximum they are willing to pay for replacement service. If the replacement service is not available at or below the maximum price the customer is willing to pay, no purchase will take place.

CONDITIONS OF DELIVERY

1. STIR service is service provided by the Company to allow customers to replace all or part of their load designated as interruptible with firm demand.
2. STIR service may only be purchased by the customer in one-week increments. The customer will be allowed to purchase no more than three weeks of STIR service in any calendar year and no more than one week out of any four continuous week period.
3. The customer must notify the Company no less than one week in advance of the period the customer seeks STIR service to take effect and must specify the kW of STIR service being requested. Customers with less than 500 kW of load designated as interruptible must request STIR service for their entire interruptible load.
4. The Company will use its currently owned or contracted capacity to provide STIR service whenever possible. When additional purchases are required, the Company will endeavor to purchase the least cost combination of price and quantity which is sufficient to meet the customer's STIR service needs.
