

Parallel Generation Rate Preference

Madison Gas and Electric Company has three parallel generation rates:

- Pg-1 is limited to generators greater than 20 kW and up to 15 MW
- Pg-2 is limited to generators up to and including 20 kW
- Pg-3 is an experimental rate open to large and small generators

Please see the enclosed rate sheets for details. If you have any questions about these rates, please contact Jeff Ford at 252-7387.

Please complete
