

**Small Commercial and Industrial Optional Time-of-Use Rate**

**AVAILABILITY**

This rate schedule is optional to commercial and industrial customers with a maximum monthly 15-minute demand of 20 kW or less who would otherwise qualify for Rate Schedule Cg-5. Those customers who wish to be served on this rate schedule on an optional basis must apply to the Company for service. Customers will be placed on this rate on a first-come first-served basis as the appropriate meters become available. Once an optional customer begins service on this rate schedule, that customer must remain on the rate for a minimum of one year. In 2015, optional customers on this rate schedule can move to the Cg-7 rate schedule prior to being on the rate for a minimum of one year

**CHARACTER OF SERVICE**

A customer will be classified as commercial in accordance with the Company's standard classifications set forth in its rates and rules and will receive service in conformance with all rules and regulations pertaining to that classification.

**SPECIAL TERMS AND PROVISIONS**

- R
1. Any customer choosing to be served on this rate schedule thereby waives all rights to any billing adjustments arising from a claim that the bill for the customer's service would be cheaper on any alternative rate schedule for any period of time, including any rights under Wis. Admin. Code § PSC 113.0406(4), Reg. July 2014, No. 703.
  2. The meter must be located outside or in a location that is readily accessible by Company personnel during normal working hours.
  3. If the customer moves or is forced to move, the customer has the option to retain time-of-use billing at the new premises. If the customer decides to discontinue time-of-use billing, the Company will offer time-of-use billing to the next customer on the waiting list.
  4. If the customer, upon expiration of a full year on this rate schedule, decides to discontinue time-of-use billing, the Company will offer time-of-use billing to the next customer on the waiting list.
  5. Customers who have their meters turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
