

## Commercial and Industrial Lighting and Power Time-of-Use Rate

### AVAILABILITY

This rate schedule is mandatory for commercial and industrial customers with a maximum monthly 15-minute demand in excess of 200 kW. If a customer's demand fluctuates above and below 200 kW, this rate schedule is mandatory if the demand exceeds 200 kW in at least four out of 12 months. Customers will not be removed from this rate schedule unless their maximum monthly 15-minute demand remains below 200 kW for 12 consecutive months.

If a customer receives service through more than one electric meter at a single location, the amount of electricity (demand and energy) supplied through all such meters will be combined in applying this rate when the criteria set forth in Combining Meters, below, are met.

### RATE

	<u>Summer</u>	<u>Winter</u>
Grid connection and customer service charge per day.....	\$14.50000	\$14.50000
Distribution service:		
Customer maximum 15-minute demand per kW per day.....	\$0.10600	\$0.10600
Distribution charge per kWh .....	\$0.01022	\$0.01022
Electricity service:		
Maximum monthly on-peak 15-minute demand per kW per day.....	\$0.45203	\$0.37362
On-peak period 1 energy adder, per kWh .....	\$0.02802	\$0.01747
On-peak period 2 energy adder, per kWh .....	\$0.04595	\$0.01596
On-peak period 3 energy adder, per kWh .....	\$0.02668	\$0.02270
Base energy: All kWh, per kWh .....	\$0.04930	\$0.04930

Summer rates are effective from June 1 through September 30. Winter rates are all times of the year other than the defined summer season.

### RATE PROVISIONS

If a new customer satisfies the availability requirements for any or all of the following provisions, and service under such provision(s) would reduce the customer's bill, then the customer will automatically be served on such provision(s).

<u>Provision</u>	<u>Sheet</u>
Low Load Factor Provision.....	E-9.1
Primary Voltage Provision.....	E-9.2

### MINIMUM MONTHLY CHARGE

The minimum monthly charge will be the grid connection and customer service charge plus the demand charge for the customer maximum 15-minute demand multiplied by the number of days in the billing period.

### PAYMENT

Payment is due not later than the due date shown on the bill. Any Company billing charges unpaid after the due date will be subject to a late payment charge as described in the Company's electric service rules under Late Payment Charge.

## Commercial and Industrial Lighting and Power Time-of-Use Rate

---

### PRICING PERIOD DEFINITIONS

On-Peak Period 1	10 a.m. through 1 p.m.: Monday through Friday, excluding holidays.
On-Peak Period 2	1 p.m. through 6 p.m.: Monday through Friday, excluding holidays.
On-Peak Period 3	6 p.m. through 9 p.m.: Monday through Friday, excluding holidays.
Base Energy Period	Includes all hours of all days.
Holidays	New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

### DETERMINATION OF DEMAND

1. All monthly demand and energy usage will be measured by recording demand meters installed and maintained by the Company. Estimates made by the Company, based on historic records plus known load characteristics, will be used for billing purposes if meter failure occurs.
2. The customer maximum 15-minute demand will be the greatest rate at which electrical energy has been used during any period of 15 consecutive minutes in the current or preceding 11 billing months.
3. The maximum on-peak 15-minute demand will be the greatest rate at which electrical energy has been used during any on-peak period of 15 consecutive minutes in the billing month.

### CHARACTER OF SERVICE

For lighting and power service, 60-cycle, alternating current is provided at the voltage levels specified in the Company's electric service rules and regulations.

### SPECIAL TERMS AND PROVISIONS

1. Customers who have their meters turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
2. New customers initiating service served under this rate schedule will be placed on this rate schedule when their initial demand exceeds 400 kW. When the new customer's demand is between 200 and 400 kW in the initial months of service, the customer will have the option of being placed on Cg-4 Level B rates until the customer has four months with demands in excess of 200 kW.

### HIGH TEST DEMAND WAIVER

This waiver is applicable to infrequent and short duration tests of customer loads in excess of 200 kW. The customer must request and get approval from the Company prior to receiving a waiver for any increase in their on-peak demand charges caused by the test load.
