Madison Gas and Electric

Effective January 1, 2022

Basic utility services

Effective January 1, 2022

We take seriously our responsibility to provide safe, reliable energy at reasonable rates. We work hard to control our costs.

In 2021, MGE worked with intervening parties to file a rate settlement agreement to resolve all issues in MGE's rate case. The Public Service Commission of Wisconsin (PSCW) reviewed and approved the settlement agreement, setting our electric and gas rates.

Overall electric rates will increase 8.81% in 2022. Electric costs for 2022 include construction costs associated with the Badger Hollow Solar Farm, which came online in late 2021; the end of a one-time deferred tax credit to customers as a result of the 2017 Tax Cuts and Jobs Act; and technology improvements including a new customer information system. Costs were updated from the initial application to address increased fuel prices.

The approved natural gas distribution and gas supply service rates reflect an overall increase of about 2.15% across all customers in 2022. The primary reason for the gas increase is technology improvements and infrastructure costs to maintain a safe and dependable system.

Visit mge.com/bizrates for more information on 2022 rates.

Green Power Program

Green Power Tomorrow (GPT) is MGE's optional renewable energy program for electric customers. The premium to participate remains at one cent per kilowatt-hour. To learn more, visit mge.com/GPT.
