- Technical training

Visit [focusonenergy.com/business](https://www.focusonenergy.com/business) or call **800.762.7077** for information, resources and incentive applications.

WISCONSIN

We put the focus on Wisconsin.

Whether at home or at work, these energy-saving tips can help lower your bills while keeping more jobs, money and energy right here in Wisconsin.

Lighting

- Install energy-efficient light bulbs and fixtures
- Consider controls for interior and exterior lighting like occupancy sensors or networked lighting controls

Heating & Cooling

- Install a smart thermostat for more control
- Insulate walls and attics
- Use fans to keep air flowing and help HVAC units run efficiently
- Perform regular maintenance on HVAC equipment
- Get an energy-efficient furnace, heat pump or boiler
- Keep the heat in (or out) with window treatments and weatherstripping

Office Equipment

- Power down computers and other office equipment at the end of the day
- Look for the ENERGY STAR® label on new office equipment

Best Practices

- Engage and educate employees in energy-efficient practices
- Open window shades for free daylighting
- Work with Focus on Energy to identify energy-saving opportunities

WISCONSIN

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
