

# Check out your new MGE Summary Bill!

Madison Gas and Electric (MGE) has upgraded our systems to provide an even better experience for our Summary Billing customers!

As a result of these improvements, we have updated the bill design and given you a new account number.

**ACTION REQUIRED!** If you make automatic payments through your bank or financial institution, you will need to update your account number for proper payment processing.

## Highlights of your new bill

**New Account Number** – You now have a single 10-digit account number that you will use to pay your bill and identify all the service addresses included in your account.

**Updated Design** – Your Summary Bill has a fresh new look and new terminology. Your bill will still contain the Groups and Subgroups that you previously established; however, individual locations within each group will be referred to as a Premise ID. View a sample at [mge.com/newsummarybill](https://mge.com/newsummarybill).

**Total Amount Due** – The Total Amount Due will show the amount you owe by the due date. Summary Bill customers are required to pay their total amount due in full each month.

**My Account Bill History** – If you are registered for My Account, you will continue to have online access to your bills and payment history from the previous 24 months.
