

Prepare for storms

**mgoe**<sup>®</sup>  
your community energy company

## Storms can strike quickly. Plan ahead and follow these tips:

- Stay away from downed or sagging power lines. If you see any, call MGE immediately at (608) 252-7111.
- Develop an emergency plan that everyone in your home understands.
- Prepare a disaster kit containing water, food, tools, first-aid supplies and a battery-operated weather radio.
- Do not touch an electric shock victim. Call 911 instead.
- If you are involved in a car accident with power lines, stay inside and wait for help. If fire or other immediate danger requires you to exit the vehicle, jump clear of the car and land on both feet. Be sure no part of your body is touching the car when your feet touch the ground. Then shuffle with your legs close together to move away from the vehicle.
