

Clean. Local.
Sustainable.

Get in on **the sun!**

your community energy company

Clean. Local.
Sustainable.

**Join the
Shared Solar
community.**

Together, we can shape our energy future.

We plan to grow renewable energy in our community with a major solar project at Middleton's Morey Field. This project will expand our Shared Solar program.

If you are a residential customer or small- to mid-size business customer, join our waiting list now to support locally generated solar energy. If you're already enrolled in Shared Solar, you will see savings under our proposed expansion.

Shared Solar—Make it your energy!
