Get clean energy
from the sun

your community energy company

Clean. Local.
Sustainable.

**Join the
Shared Solar
community.**

In 2020, you can power your home with solar energy from Madison Gas and Electric!

Your community energy company is building a new Shared Solar installation at Morey Field in Middleton. Join the program to get locally generated solar energy for your home once the new array is complete.

It's easy, affordable and it helps grow renewable energy in our community.

Shared Solar – make it your energy! Join today at mge.com/SharedSolar.
