

**Smell gas?**

**Don't wait. Go outside  
and call 608-252-1111.**

We want you to be safe. That's why we add a distinctive, harmless chemical odor to the natural gas that we deliver to you. The smelly (rotten egg), sulfur-based odor will help you detect gas leaks that may occur in your home, business or neighborhood.

**If you smell gas:**

- Don't touch anything electrical.
- Leave the building.
- Call MGE immediately at **608-252-1111** from outside and away from the odor.
