your community energy company

FOCUS ON ENERGY® offers energy-saving programs to Wisconsin residents.

Simple Energy Efficiency Kits - Sign up for a FREE kit that contains a variety of products such as ENERGY STAR® LED light bulbs, pipe insulation, a high-efficiency showerhead and water-saving faucet aerators. Learn more at focusonenergy.com/residential.

Online Marketplace - Shop online for energy-efficient products, like smart thermostats, power strips and LED light bulbs, and receive instant discounts. Learn more at focusonenergy.com/marketplace.

Smart Thermostats - Receive a \$50 rebate when you purchase an approved smart thermostat. Learn more at focusonenergy.com/residential.

Energy Assessment - Gain a better understanding of how your home is performing with an energy assessment to check air sealing, insulation and your HVAC systems. Learn more at focusonenergy.com/residential.

Learn more by visiting focusonenergy.com or calling 1-800-762-7077.

Using energy efficiently and conserving it are some of the most critical actions we all can take to reduce our environmental footprint and manage our energy use. Energy efficiency is recognized as a key strategy for reducing carbon dioxide emissions. MGE is committed to working with our customers to achieve net-zero carbon electricity by 2050.
